I am digital product designers with **5 years experiences** on digital product development. And my goal since my teenage is to make digital products to **help people's life more easier and efficient**. My Slogan is **"I Design Products With Love"**.

Career History

Senior UX Designer @ Lexagle / Singapore

October 2022 - April 2023

- I own **obligation management** feature, **public link to streamline contract inquiries**. I collaborate with UI Designers Product Managers and Developers

Outcomes • Features are delivered to developers

UX Designer @ Treedots / Singapore

November 2021 - October 2022

- I took **ownership on Supplier Portal for B2B Business Arm** by collaborating together with Product Managers and Developers. Features that I design includes Sales Management, Order Management, Inventory Management, Dispute Management and so on.
- I also assist our Team Lead in **building a remote-friendly work environment** by leading activities like Good Vibe Fridays, fostering a strong Team
- I volunteered in **addressing UX Debts in the system and solve** by conducting user research, creating sitemaps, user flows, prototypes, design systems and usability testings, setting UX Metrics.

Outcomes • **Product is launched** into the market
• Successfully build **remote friendly and collaborative** design team
• **Tracking UX Debt Plan** is settled and most of them are **solved**.

Product Designer @ Nexlabs / Yangon

September 2020 - November 2021

- I collaborated with the design team, developers and business analysts in order to **create design for diverse industries requested by clients**. I design mobile and website products for FinTech, HealthTech, Entertainment and Community Based Non Profit Organizations.

Outcomes : **More than 5 digital products** including mobile application, website and web applications are **delivered into the market**.

Career History Cont'd

UI/UX Designers @ Adventsoft / Yangon

December 2018 - September 2022

- I transitioned from a Software Engineer to a UI/UX Designer. My main **responsibility is to design mobile and website products** for FinTech, TeleHealth, E Commerces, Ride Hailing Platform, Insurances and Education Industries.

Outcomes : **More than 10 digital products** including mobile application, website and web applications are **delivered into the market.**

Internship @ Acroquests / Yangon

2018

- During the final year of my university, I worked as an internship. My responsibility is to **create web application with Spring Boot.**

Outcomes : **I understood how the digital products are developed** in the industry and **hands on experiences** with Software Development Life Circle.

Educations

Computer Sciences Degree @ University of Computer Studies, Taunggyi

2013 - 2018

- I learn about Computer Science, Human-Computer Interaction, Cyber Security, Software Engineering and Project Management.

Honorable Mentions

Speaker @ UXMM Events / Yangon

(2023)

In this event, I **contributed the community about UX Debts and strategies** about how to solve them.

Speaker @ Google DevCon / Yangon

(2022)

In this event, I **contributed the community about the collaboration best practices** between developers and designers
